Office Action Summary	Application No. 10/687,643	Applicant(s) MINO, TETSUYA	
	Examiner Paul D. Kim	Art Unit 3729	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This office action is a response to the amendment filed on 9/7/2005.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-4 are rejected under 35 U.S.C. 102(e) as being anticipated by Okai et al. (US PAT. 5,687,045).

Okai et al. teach a process of making a thin film magnetic head comprising process of: sequentially depositing a first magnetic layer (13), a non-magnetic layer (14) and a second magnetic layer (13'); and forming a three-layer pole tip structure located between an air bearing surface and a position at a predetermined height from the air bearing surface by dry etching (equivalent with ion milling) using O₂ gas or mixture of Ar-O₂ gas or Ar gas (equivalent with no reactive gas) the first magnetic layer, the non-magnetic layer and the second magnetic layer, the non-magnetic layer being made of a material having an etching rate, for the ion milling using no reactive gas, equal to or higher than that of a material for making the first and second magnetic layers (col. 10, lines 35-52).

Re. Claim 2: A material of the non-magnetic layer is one selected from a group of silicon dioxide and tantalum oxide (col. 11, lines 56-60).

Re. Claim 3: A material of the first and second poles is nitride containing iron (col. 8, lines 11-14).

Re. Claim 4: the material of the non-magnetic layer is tantalum oxide, and wherein the material for making said first and second poles is nickel iron.

Response to Arguments

3. Applicant's arguments with respect to claims 1-4 have been considered but are moot in view of the new ground of rejection. Rejections are based on the newly cited reference.

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul D. Kim whose telephone number is 571-272-4565. The examiner can normally be reached on Monday-Friday between 7:00 AM to 3:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter Vo can be reached on 571-272-4690. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
